EDUCATION

Kanchanaburi Rajabhat University Expected Graduation: November 2026
Bachelor of Science in Computer Science Kanchanaburi, Thailand

EXPERIENCE & ACHIEVEMENTS

Software Engineer Intern (SUPALAI Tech Talent Program 2026) | C#, .NET Core, Next.js, PostgreSQL June 2026 – September 2026
Supalai Public Company Limited - Headquarters Bangkok, Thailand

- Developed the Environmental Impact Assessment (EIA Phase 2) monitoring system, supporting 4 user roles and featuring a Public Dashboard to enhance transparency and mitigate operational risks for real estate projects.
- Engineered APIs to integrate and store real-time data from third-party Micro Stations, and implemented a rule-based processing engine to trigger automated SMS alerts to stakeholders whenever environmental metrics exceeded safety standards.
- Collaborated within an Enterprise Environment development team, actively engaging in Code Reviews and CI/CD workflows, with hands-on experience in writing Unit Tests and resolving code quality issues based on SonarQube reports.

1st Place Winner in Computer Network Management Skills Competition 2025
The 46th Ratchaphruek Games (Western Region) Kanchanaburi, Thailand

- Secured 1st place by configuring Enterprise Wi-Fi via Cloud Controller (Roaming, Load Balancing) and designing Bandwidth Management (QoS) to perfectly resolve network congestion issues within the time limit.

Mentor & Graduate of the Meditation Instructor Course 2024 – 2025
Willpower Institute (Batch 52, Branch 58) Kanchanaburi, Thailand

- Completed a 1-year program and was assigned as a mentor for the next batch of trainees to develop leadership skills and responsibility.

PROJECTS

Champ Noodle Restaurant Management System | C#, ASP.NET Core, React, SQL Server November 2025 – Present

- Developed a Full-Stack Web Application to solve order delays and queue errors by building APIs for real-time data integration between the storefront and kitchen, significantly reducing manual workloads.
- Re-architected the system for commercial use to support the restaurant's actual scale, handling deployment on an IIS Server (Production) and delivering a functional business management tool to the business owner.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core Web API, ASP.NET MVC, Blazor

Frontend & Mobile: React, Next.js, Redux Toolkit, React Native

Database: SQL Server, PostgreSQL, DBeaver

Tools & Environment: Postman, IIS, Ubuntu, Docker, Linux, AI Coding Assistant (GitHub Copilot, Claude, ChatGPT)

Workflow: Git, GitHub Actions (CI/CD Workflow), Unit Testing (xUnit), SonarQube Analysis, Code Review Process
